1. Introduction

What we do

Healthwatch East Riding is the independent consumer champion for health and social care. We have the power and influence to ensure people's voices are heard by those providing and commissioning local health and social care services. In addition to seeking the public's views ourselves, we also encourage services to involve people in decisions that affect them.

Healthwatch also has a statutory power to 'Enter and View' local services; where we provide recommendations for improvement. To find out more, please visit: <https://www.healthwatcheastridingofyorkshire.co.uk/enter-and-view/>

Every month, Healthwatch gathers information from the public about local health and social care services; which is shared anonymously with the providers and commissioners of these services. This process allows for issues to be addressed as early as possible in order to prevent further escalation.

This Report

The detail in this report applies to **November 2023** and refers to the information Healthwatch has received and researched during this period. The report provides the nature of experiences, the intelligence, and emerging trends during each quarterly period for a range of care types and providers.

The service areas highlighted in these reports are as follows:

- Primary Care
- Secondary Care
- Urgent Emergency Care
- Mental Health Services
- Community Services
- Other Services

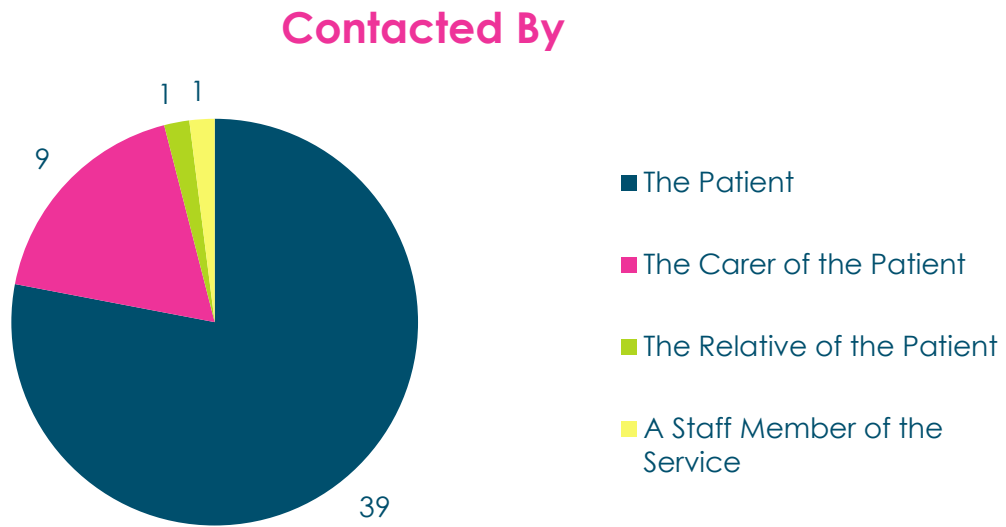

In-addition to this, our report also includes information highlighting the ongoing support provided by the NHS Independent Complaints Advocacy Service.

Please note: All experiences have been anonymised and where quotes are given, they have been recorded as provided to ensure we capture the authenticity of the experience. All experiences in this report have been received and researched in good faith and where contact details have been provided, and if required, explored.

Following the publication of this report, we are happy to receive feedback from service providers using the enquires@healthwatcheastridingofyorksire.co.uk as it provides confidence to the public that their experiences are valued, acknowledged and acted upon.

2. Contact Statistics

During **November** we had **50** people contact Healthwatch directly to provide feedback or to ask for information/advice.

The most popular means of contacting Healthwatch this month is shown below.

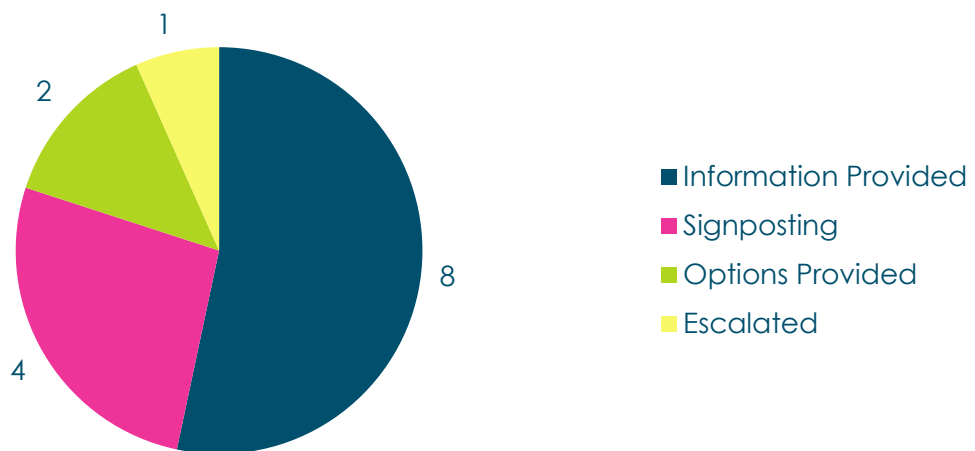

We also conducted online research of local services, where we found a total of **27** experiences. These experiences are in the form of online reviews, which people have left on a provider's website for the month of **November**.

The total amount of information and experiences retrieved this month, through contact and research is **86**.

Actions Taken

Negative Experiences

Service Name:	GP Surgery

			November 2023
Experience:	<p>Having had a reminder letter for an appointment I didn't know I had to make myself and having rung the telephone number as the letter did not include the crucial access code needed to do this online. The appointment was made but changed as a better one came up whilst I was on the telephone to the adviser. A few days later I got the original letter but wanted to ring to check that the appointment time had changed. But when I rang the number of course they were unable to check, as yet again I had no access code which apparently should have been given to me by the GP surgery - they had not so I was unable to check the appointment time. How ridiculous is this system where even though I had a reference number etc it could not be checked. So, I the adviser suggested I ring the GP</p>		

	<p>for the access code - a totally pointless exercise as you are always on hold for hours or to ring the hospital. This appointment system is useless when they fail to give you the information needed to access it but more than that - when I was discussing this with the referrals operative - they told me that I couldn't have made an appointment myself at this hospital as they made their own - so it would have been useless anyway. Who designed this completely rubbish system where no one seem to know what they are doing and the different parts of the system seem not to communicate with each other. What the point asking me to make my own appointment with a hospital that don't allow you do that? What was wrong with the old system? No one informs you of the new system, so you have no idea what it is you are supposed to be doing</p>

<p>Service Name:</p>	<p>The Park Surgery, Driffield</p>	<p>PCN:</p>	<p>Yorkshire Coast and the Wolds PCN</p>
<p>Identified By:</p>	<p>Engagement</p>	<p>Date Recorded:</p>	<p>30 November 2023</p>
<p>Experience:</p>	<p>This patient explained how they find it too difficult to access GP appointments, to a point in which they "dread ever needing" their GP. They say it takes too long (weeks) to get an appointment through the online triage system, and they aren't happy with the lack of face-to-face appointments, saying "I've never even met them" referring to their GP. This patient said they would prefer it to make appointments over the phone or in person "but it's getting more and more difficult".</p>		
<p>Actions Taken: (Healthwatch)</p>	<p>Advice given on how to change GP practices should the patient wish to, and assurance that the feedback will be anonymously reported by HWERY.</p>		

<p>Service Name:</p>	<p>Hedon Group Practice</p>	<p>PCN:</p>	<p>Holderness Health</p>

Experience:	"I've been registered at this practise since 1994. Having moved from Thongumbald to Hedon Road, Hull - I was told this was not an issue. At no time, up until today, have I been officially told I need to change GP. Today the receptionist asked if I lived in Hedon, clearly not if you have my details in front of you - and went on to advise I had been served 30 days notice to find an alternative GP. I understand about catchment areas etc but why not write to me advising me rather than wait until I phone in for an appointment? I suffered a PE earlier this week and to be told I need to find an alternative GP does not help my condition. Why invite me for flu jabs, Covid boosters if I shouldn't be "on the books"?? This could easily be managed without creating additional stress for patients at their most vulnerable times. Appalling customer service and overall management. What a joke. "

Experience:	"having my medication changed had to ring to make an appointment for blood test, after ringing and leaving my phone on loud speaker longest call 55 mins and spending 5 hours 10 mins total no answer. I used the call back 12 times no one ever called back phone calls were after 11 am and in afternoon similar with call back the period was 11 days. Had to visit dispensary to pick tablets up while waiting heard people making appointments so on leaving asked to make appointment see a nurse receptionist replied you have to ring up to make an appointment sorry you cannot do it here odd when we heard appointment's been taken earlier this was an afternoon. I have been with this practice from been born 74 years ago I have got to say it was a very good practice before the merger lovely staff but who ever designed the phone system wants sacking there is no your number14 or so in the que so as you have guessed I have gave up no appointment no blood test thanks Holderness health for your help not"

Experience:	<p>"Husband attended with chest infection. Found AF and told to make his way to hospital. In December AF flared up again and taken by ambulance to hospital. Have tried to see GP to find out more about condition but still have not managed to arrange. I contacted them myself for a back problem and told to go to A&E without seeing a doctor and ask for a MRI scan. Did as instructed and told the advice I had been given was inappropriate. Tried to speak to surgery again to request a referral for the scan or to a neurologist but got cut off twice. Have since arranged this privately but what will happen if investigations are needed as I don't have insurance."</p>

Identified By:	Engagement	Date Recorded:	23 November 2023
Experience:	<p>This patient says there were technical problems meaning that an X-Ray didn't go through to their GP, and that it ended up taking a month to get an X-Ray for a fractured arm.</p>

Service Name:	GP Surgery		
Identified By:	Engagement	Date Recorded:	23 November 2023
Experience:	<p>The carer (wife) of the patient says that her husband had a brain haemorrhage 30 years ago whilst living in London. The symptoms have been manageable since then, however there has been a recent change in behaviour of the patient. The carer says he has a lack of control over his left side, and now has terrible mood swings with intense anger. The carer is frustrated that the GP has not provided any care or referrals to neurological services since living in the East Riding, as the symptoms clearly effect his daily living.</p>		

Actions Taken: (Healthwatch)	HWERY suggested that the carer advise her husband to ask the GP for a referral for further support.		
Service Name:	Holderness Health		
Identified By:	Telephone	Date Recorded:	20 November 2023
Experience:	<p>The patient believes that she is not being listened to by her GP, despite having ongoing health issues for the past 2 years. As a result of the health concerns not being listened to, the patient is having to call 111 on a regular basis for help, as well as attending the urgent treatment centre in Beverley. This is due to feeling that the GP practise would not help.</p> <p>Furthermore, the patient described her mental health as seriously poor and is now socially isolated due to not being able to leave the house.</p> <p>The patient has requested to make a formal complaint against her GP practise.</p>

Experience:	<p>My GP told me that she was making a referral for a hospital appointment. I waited for the letter telling me of the appointment. Instead I get a letter telling me off for not making an appointment. I was unaware that I had to make the appointment myself, as this had never happened in the past. I couldn't make the appointment online, as I did not have the pass code I needed either. I had to ring the number and give them my details so they could then refer me to get an appointment. Not long after, I was phoned by the referrals line and told that my phone call to them was the first they knew of the referral. Apparently the GP was supposed to either make the appointment themselves or refer me to the referrals system</p>		

	and they had done neither. I could have potentially been left waiting not knowing I hadn't been referred at all. I am disgusted and very upset about this but this seems to be the standard of service these days.

Service Name:	Practice 3	PCN:	Bridlington
Identified By:	Engagement	Date Recorded:	2 November 2023
Experience:	The patient has been experiencing back pain since May 2022, and has regularly visited this GP about it. The patient says that he was told "at your age just learn to live with it". In October 2023, the patient was referred for a scan where it was found he had a slipped disc and trapped nerve. The patient is unhappy with the length of time it took him to get the scan and start treatment for his back pain, and thinks it is due to his age.

Experience:	I have never had an appointment that was on time - without fail they are late. On average I would say 15 mins, once I had to wait nearly an hour, gave up, but if you are just a few seconds later - they cancel your appointment and mark you down as non attender. Very unfair.

The patient reports - incorrect information is given to you and you are just expected to go along with it. Why is it the NHS cannot give correct accurate information to patients? If you want to get some accurate information you have to complain. The service appear that they just don't care and it is getting steadily worse. The service is poor in this area.

I am told that I have to go to a certain hospital with no choice at all. The appointment is never at the time of your choice and trying to change it is impossible. I can't get through and people are annoyed with you for wanting to change and that only means waiting longer when you have already waited ages. When did things get so bad?

Experience: You are told on the GPs websites and NHS that evening and weekend appointments are available. No, they're not. Certainly not in this area anyway - another example of inaccurate information peddled to the long suffering patients.

I have every sympathy with people who bypass this and just go to A and E - you may have to wait 5 hours but at least you will be seen by a doctor, unlike trying to get a GP appointment. 111 is a joke - you phone and then a day later still no one has phoned you back - may as well have gone to A and E as I would have been seen in a shorter amount of time.

Service Name:	Beverley Health Centre, Manor Road Surgery	PCN:	Beverley PCN
Identified By:	Engagement	Date Recorded:	30 November 2023
Experience:	The patient was referred to Manor Road Surgery for a physiotherapy appointment and was really pleased with the whole experience. The patient said " I can't remember the last time I left an NHS appointment not feeling deflated... but I came out of there smiling!". The patient felt listened to and respected, and said the PT was lovely. The PT educated the patient about the injury in a non-patronising way, and answered all of the patient's questions leaving them feeling informed and confident about their treatment.		
Actions Taken: (Healthwatch)	The positive feedback will be reported by HWERY.

Experience:	"The reception team are like nothing I have experienced with previous GP practices. Efficient, friendly, and genuinely kind people! A number of times I have asked to merge appointments being a shift worker myself, never too much trouble for them. And always get me in the next day/morning!! And answer the phone at any time of day, not long waiting times. The doctors		

and nurses are also brilliant, caring, kind and nothing is too much for them. You don't feel ignored or silly for speaking to them. They also want to help, putting patients first. I have to mention the nurse who did my 1st smear this month. All I can disclose is that I took longer to take my jeans off ha! than to do the smear I was genuinely so impressed! She was so kind and also chatty, friendly and informative of the whole procedure. Such a genuinely lovely kind lady!

Experience:	<p>This patient had open heart surgery in 2016 in which stents were placed. Around 3 weeks ago the patient returned from holiday early due to chest pains. The patient's GP prescribed pain medication to treat the symptoms, and referred the patient for an urgent appointment with the Cardiology team at Castle Hill Hospital. The patient told Healthwatch how the long wait to be seen by a specialist is worrying them, and that the patient does not feel able to go out or live a normal life until they are seen and treated.</p>

Service Name:	Oncology		
Identified By:	Engagement	Date Recorded:	6 November 2023
Experience:	The carer of the patient explained that their joint experience of the Queen's Centre at Castle Hill Hospital was "nothing but positive". They both felt highly supported and treated with respect throughout the treatment. The Macmillan nurses were "amazing" and have kept in touch. The patient and his carer felt empowered by the education they were given about the patient's diagnosis, and appreciated the leaflets they were given with helpful information and support services on. They only wish they could get this level of support with any other diagnosis.		
Actions Taken: (Healthwatch)	The patient and his carer were assured that their positive comments would be reported by Healthwatch ERY.

Experience:	On 29th of May this year I went to Specsavers because I was having problems with my ears. I was told it had to do with my inner ear so he made a referral to ENT department.		

The only thing I have heard since was a message from them on the 30th Aug	<p>NHSAppt: You are waiting for a ENT appointment/procedure at York & Scarborough Hospitals Trust. We are sorry for your wait, and we will be in touch with you as soon as a date is available.</p> <p>If, for any reason, you no longer require this appointment please let us know by replying 'NO 2453'. If you reply 'NO 2453' we will remove you from our waiting list and we will let your GP know.</p> <p>I have pain and feel there is something in my ears.</p> <p>I have trouble hearing and this is effecting my social life. I hear snapping crackling and have popping in my ears. I'm not confident that I will ever get an appointment. People seem to think losing hearing is funny. I can tell you it's not. I fear that even if they do eventually see me that it will leave it that long it will be a permanent situation for me.</p>

Service Name:	Willersley House		
Identified By:	Research	Date Recorded:	22 November 2023
Experience:	"Visit my close friend regularly and whilst she has had a health decline staff have gone above and beyond, she is very well cared for."		

Service Name:	St Marys Care Centre		
Identified By:	Research	Date Recorded:	7 November 2023
Experience:	"Mum has resided in St Marys for 3 months now, after being admitted from hospital for nursing care. Her care has been first class, not only from the nursing staff but from each and every carer, who is not only kind and compassionate but jolly and fun at the same time. There are always smiles and laughter in St Marys, which is a medicine in itself. Mum is always treated with dignity and kindness and as an individual. Family and friends are always welcomed and kept well informed. Well done to all the staff at St Marys, you should all be very proud of the "home" you've created for all of your Residents."		

Service Name:	Southlands		
Identified By:	Research	Date Recorded:	2 November 2023
Experience:	"Since the appointment of the new manager in 2022 at Cranswick Lodge, my mum is looked after to a very high standard. It has been transformed into such a nice place for mum to live. The team care about Mum and always do their very best to meet her needs and make her as comfortable as possible. My mum is very happy here and sees the staff as her family. I very much appreciate that the manager always has		

time to discuss any concerns about Mum and she fully explains any changes that happen at the home and keeps me very well informed. I would not hesitate in recommending Cranswick Lodge as a home to anyone who needs care."

Service Name: Southlands

Identified By: Research Date Recorded: 22 November 2023

Experience: "The staff were so welcoming to my mother, made her feel at ease. Treated her with care and fully supported her when she became unwell. Were polite and courteous to me and my family at all times. I would recommend the care home."

Service Name: Red House - Care Home

Identified By: Research Date Recorded: 21 November 2023

Experience: "My wife seems to have settled into her care home. The staff all seem to be very caring and confident when performing their duties. She says most of the meals are well-prepared and tasty. She gets involved in what activities she can, but unfortunately, there are some that she can't physically do. When we visit her, we are always welcome."

Service Name: Overton House - Care Home

Identified By: Research Date Recorded: 30 November 2023

Experience: "My mum has been a resident of Overton House for over 10 years. I have always been extremely pleased with the care that she has received. The staff, who are very welcoming, have catered for her every need and are in touch with me straight away if they have any concerns. Although my mum's communication is very limited now, she still raises a smile, which is lovely to see. I have no doubt that she is as happy today, as she has always been. Everyone at Overton deserves the praise they receive, for the wonderful, caring work they do. Thank you so much!"

Service Name: Magnolia House

Service Name:	Magdalen Park Nursing Home		
Identified By:	Research	Date Recorded:	1 November 2023
Experience:	"Mum was made very much to feel at home when she moved into Magdalen Park. Her room is spacious, well furnished, and comfortable. There are so many activities to do there, including a bistro, shop and hairdressers within the building. Outside there are so many places to sit and relax with lovely views."		

Service Name:	Magdalen Park Nursing Home		
Identified By:	Research	Date Recorded:	2 November 2023
Experience:	"My mother went into Magdalen Park Care Home in April 2023, sadly due to inoperable cancer and dementia. The staff went over and above to settle her into the home as she really could not understand why she was there. Over the months, they embraced not only my mum but the entire family, offering refreshments and general kindness on every visit she sadly passed away at the beginning of the month and her end of life care was very caring and kind. Staff even came in on their day off to say goodbye to her. We cannot thank the home enough for their support at a very difficult time."		

Service Name:	Magdalen Park Nursing Home

Experience:	"Visited a few times to see family friends and there's always such a warm welcome, staff are attentive and the residents are well looked after and happy. Great facilities and so much planned to keep them entertained. A fun, happy environment to be in. Highly recommended."	

Service Name:	Magdalen Park Nursing Home	
Identified By:	Research	Date Recorded: 13 November 2023
Experience:	"My father-in-law became a resident for emergency respite whilst my mother in law was seriously ill, I was pleasantly surprised at how amazing the place was. His room was stunning with a balcony and beautiful view. The caring team were attentive and genuinely care for their residents, the food looks like something from a good quality restaurant and all homemade. I could not wish for him to be in a better place, he loves the food, activities and interaction with the staff and residents. My mother-in-law is still not so good so he goes in regularly for day care at his request, this is great for the family knowing and understanding how happy he is whilst giving the respite and break my mother-in-law and family need. My father-in-law has dementia, his requirements and needs are always fulfilled at Magdalen Park and he genuinely seems happy to be there."	

Service Name:	Magdalen Park Nursing Home	
Identified By:	Research	Date Recorded: 22 November 2023
Experience:	"Having to accept that I could no longer give my mother the 24-hour care she needed and having to come to terms with her going into care was heartbreaking, but I can say in all honestly that she is in the best care home that I have ever seen. My mother has flourished; she is in a care home that has catered for her every need, and whilst I accept the building, the grounds	

and facilities are first class, it is the staff that has been consistently outstanding. From door to floor, without every member of staff involved in my mother's care, neither my mother nor myself could've coped. We owe them all a great deal indeed."

Service Name:	Lindum House		
Identified By:	Research	Date Recorded:	7 November 2023
Experience:	"My mum has been a resident at Lindum care home for a number of years and has had some good times with the staff and residents. She is looked after very well. I would recommend the home to anyone. It is always peace of mind knowing she is well looked after by kind, lovely staff - thank you, Lindum."

Experience:	Carer said that the carers arranged by East Riding (Caremark) had been very stressful. They were extremely unreliable and would ring at 7am to say they weren't able to come that day to deliver essential care that day so she never knew whether they would turn up and found it difficult to make plans and couldn't visit her elderly mother who lives in Scotland as she couldn't rely		

	<p>on Caremark. She had therefore arranged for a different care company to support her husband and had kept East Riding Council informed but despite having agreed initially to continue paying a contribution towards the cost of care but had said that because she changed to a different company they would stop this. There is now £7000 outstanding so she is having an ongoing battle with the council and the carer is finding the lack of communication between council departments hugely frustrating.</p>

7. Independent NHS Complaints Advocacy Service

The Independent NHS Complaints Advocacy Service is a free, independent, statutory advocacy service, funded and commissioned by local authorities.

In the East Riding, this service is delivered by our partner organisation, Cloverleaf Advocacy and supports East Riding residents who want to make a complaint about NHS commissioned services.

Through the support it provides, the Independent NHS Complaints Advocacy Service ensures local people have their voice and concerns heard by providers and commissioners of local services. By allocating an advocate who will speak confidentially to them about their concerns and help them to understand the different options available at each stage of the complaint's procedure.

8. Why Intelligence is Important

Following our experience gathering each month, Healthwatch develops this monthly intelligence report to assist local service providers and commissioners to understand the public's perceptions; with a view for their experiences to highlight possible areas of change.

When published, this report is sent to:

- Hull Health and Care Partnership (formerly, NHS Hull Clinical Commissioning Group)
- East Riding Council
- East Riding of Yorkshire Clinical Commissioning Group
- Humber Teaching NHS Foundation Trust (HTFT)
- City Health Care Partnership (CHCP)
- Care Quality Commission (CQC)
- Hull University Teaching Hospitals NHS Trust (HUTH)
- NHS England and NHS Improvement (NHSE/I)
- Independent NHS Complaints Advocacy Service
- Yorkshire Ambulance Trust
- ERSAB (East Riding Adults Safeguarding Board)

Healthwatch East Riding also attends regular meetings to discuss our intelligence report with those who have the power to influence health and social care now and in the future.

Some of the meetings we attend are:

- Health and Wellbeing Board
- Health Care and Wellbeing Overview Scrutiny Sub Committee
- Primary Care Quality and Performance Sub-Committee
- Hull University Teaching Hospitals NHS Trust Intelligence Meeting

- The information provided in our intelligence reports also contribute to our rational to use the Healthwatch statutory power to 'Enter and View' and our decision-making in future project work.
